The Planet of Junior Brown Virginia Hamilton

Junior Brown is a musical prodigy losing touch with reality and everyone around him—except for one important friend

Junior Brown is different than the other kids in his eighth-grade class. For one, he weighs three hundred pounds. He's also a talented musician with a serious future as a professional pianist—if he survives middle school. With an overbearing mom, disappointed teachers, and fellow students who tease him mercilessly, Junior starts to slip away into his own mind. His last hope may be his only friend, Buddy Clark, a boy in his class without a home or family who has already learned some of life's toughest lessons.
