America in Decline Frank de Varona

This book discusses the reasons for the decline of America under Obama. The author presents the real Obama, who has been associated his entire life with Marxists, socialists, and radicals. The failure of the mainstream media in exposing Obama's radical past is discussed. The author provides an account of Obama's connections with his racist and unpatriotic pastor, Jeremiah Wright, his friendship with the unrepentant terrorist Bill Ayers and with criminals such as Tony Rezco. The author reveals the multitude of scandals that have marked Obama's life before and after his election as president. The scandals of the purchasing of his house in Chicago, Saudi Arabia's financing his Harvard education, the percussion by IRS, EPA, Labor Department, NLRB, and Justice Department of political opponents, the gun-running operation Fast and Furious, the NSA spying on Americans, the Benghazi affair, and many others. He points out that any of these recent scandals could result in impeachment charges on the president. The author explains that Obama is the first Marxist and hidden Muslim elected to the White House in the nation's history. The author tells about Obama's road towards a totalitarian socialist society and his disdain for the Judeo Christian values that made our nation great and his war against religion and Christianity. The book tells about Obama's desire to take away the sovereignty and the wealth of the nation through U.N. laws and treaties and the eventual establishment of a one world government. The author covers the misguided economic and foreign policies of the president who has placed our nation at risk of bankruptcy and seriously endangered our national security. The book covers the disastrous beginning of the first year of Obama's second term. It includes chapters on the unlawful Common Core, the infiltration of the Muslim Brotherhood and communists in the Obama administration, the history of the Muslim Brotherhood and its goal to destroy our nation and the West, Obama's multiple violations of the Constitution and electoral fraud in the two presidential elections. The author discusses the volatile situation in Egypt and Syria as well as the increasing threat of al-Qaeda, China, Iran, North Korea, and Russia. The book covers the government shutdown and the disastrous implementation of ObamaCare. The author gives an account of the unlawful creation of the Federal Reserve Bank by a banking cartel and of the Bank for International Settlements, the central bank of all the private central banks which runs the world. He describes the New World Order and the powerful elite of the Bilderberg Group, Trilateral Commission, and Council of Foreign Relations which runs the United States and the world. Lastly, the author offers specific recommendations to rescue the nation from tyranny and the road ahead for winning the Senate in 2014 and the White House in 2016.
