Growing Vegetable Soup (Voyager Books) Lois Ehlert

"Dad says we are going to grow vegetable soup." So begins Lois Ehlert's bright, bold picture book about vegetable gardening for the very young. The necessary tools are pictured and labeled, as are the seeds (green bean, pea, corn, zucchini squash, and carrot). Then the real gardening happens . . . planting, weeding, harvesting, washing, chopping, and cooking! In the end? "It was the best soup ever." Ehlert's simple, colorful cut-paper-style illustrations are child-friendly, as is the big black type. A recipe for vegetable soup tops it all off!

From reader reviews:

Christine Flint:

Reading a book to become new life style in this calendar year; every people loves to study a book. When you read a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what types of book that you have read. In order to get information about your study, you can read education books, but if you want to entertain yourself look for a fiction books, these kinds of us novel, comics, and soon. The Growing Vegetable Soup (Voyager Books) provide you with new experience in reading a book.

Lionel Gutierrez:

Is it you who having spare time and then spend it whole day by means of watching television programs or just telling lies on the bed? Do you need something totally new? This Growing Vegetable Soup (Voyager Books) can be the answer, oh how comes? A fresh book you know. You are and so out of date, spending your spare time by reading in this brand-new era is common not a nerd activity. So what these publications have than the others?

Isidro Wells:

Do you like reading a reserve? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many query for the book? But almost any people feel that they enjoy regarding reading. Some people likes examining, not only science book but novel and Growing Vegetable Soup (Voyager Books) or perhaps others sources were given information for you. After you know how the fantastic a book, you feel want to read more and more. Science guide was created for teacher or perhaps students especially. Those publications are helping them to put their knowledge. In other case, beside science e-book, any other book likes Growing Vegetable Soup (Voyager Books) to make your spare time a lot more colorful. Many types of book like this one.

Michele Fernandez:

As a university student exactly feel bored to reading. If their teacher inquired them to go to the library or even make summary for some book, they are complained. Just small students that has reading's heart and soul or real their passion. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Growing Vegetable Soup (Voyager Books) can make you sense more interested to read.
