The basic workflow and tools are covered in Lessons 1 through 4 where you will create a rough cut. The real-world workflow continues through the remaining lessons as you take the basic project and enhance it with a deeper dive into the more advanced Final Cut Pro X features including how to efficiently organize and share media with the new Libraries, enhanced audio tools, streamlined media management, retiming, and more.

- Downloadable lesson media files to work sequentially through exercises for hours of hands-on training.
- Focused lessons teach concepts and take students step by step through professional, real-world editing scenarios to create a final project.
- Chapter review questions summarize what students learn to prepare them for the Apple certification exam.
