A Phoenician-Punic Grammar (Handbook of Oriental Studies) Charles R. Krahmalkov

This volume includes the phonology, orthography, morphology, syntax, language and usage of the Phoenician-Punic language. It contains examples from texts and dialects, including fragments of a Punic drama, to bring to life the grammatical description of this language. The description of the literary language holds that tense and aspect reference of a given form of the verb is largely a function of syntax, not morphology.
