The Intelligence of Place: Topographies and Poetics

The Intelligence of Place: Topographies and Poetics

Place has become a widespread concept in contemporary work in the humanities, creative arts, and social sciences. Yet in spite of its centrality, place remains a concept more often deployed than interrogated, and there are relatively few works that focus directly on the concept of place as such. *The Intelligence of Place* fills this gap, providing an exploration of place from various perspectives, encompassing anthropology, architecture, geography, media, philosophy, and the arts, and as it stands in relation to a range of other concepts.

Drawing together many of the key thinkers currently writing on the topic, *The Intelligence of Place* offers a unique point of entry into the contemporary thinking of place – into its topographies and poetics – providing new insights into a concept crucial to understanding our world and ourselves.
