HEARING AIDZ FOR ALL: Do-It-Yourself (DIY) Shopping for NEW Open-fit Aidz to Help Typical Noise-Induced and Aging Hearing Loss (up to 80% of People) Mel Moench

This book is especially written for those with very common noise-induced or aging hearing loss. It focuses on for DIY (Do-It-Yourself) shopping for the popular BTE Open-Fit aidz in order to SAVE MONEY! The focus is on alternative purchasing options rather than the traditional high-priced clinics and hearing centers in order to SAVE MONEY! Covered topics include descriptions of an audiogram, fitting range, and what features to look for.

This guide is aimed at informing consumers about causes of hearing loss, prevention, and treatment options. In addition to providing an exhaustive overview of hearing aidz in general, the book also covers such important topics as programming options, self-programmable aidz, buying used aidz, repairing aidz, and proper care for the devices.

It goes into alternative purchasing such as shopping at discount centers and on the Internet. It also goes into a description of all of the features—without all of the complexities. This work was created to help the 36 million Americans with “common” hearing loss that could be helped, but simply cannot afford the high cost

This work presents a detailed resource, but tries to keep it as simple as possible. Down-to-earth terms and easy-to-read format is used. The format is easy to follow and explanations are offered throughout this work. The goal is to allow the reader to gain a substantial and satisfying handhold on how and why hearing aidz work and to make informed decisions. This long overdue work is the complete, one-stop guide to BTE open-fit hearing aidz, covering everything you need to know. This is a must read—especially for first time buyers.
