Democratisation and the Prevention of Violent Conflict Jenny Engström

The study of dynamics of democratisation in societies is divided along ethnic and religious lines. Challenging the commonly held belief that democratisation necessarily leads to aggressive ethnic nationalism and even violent conflict, this book offers an alternative account of democratisation and interethnic relations, suggesting that democratisation can in fact help to prevent violent conflict in divided societies, as demonstrated by two case studies, Bulgaria and Macedonia. In a time when democracy promotion is increasingly becoming part of international relations and foreign policy, this study offers some poignant lessons for democratisation and conflict resolution in places such as Iraq, Afghanistan and Israel/Palestine to name but a few.
