This book will show you how to learn a new language quickly and enjoyably. Many people believe that they are not capable of picking up a second language, or that learning to speak fluently and easily is a gift that only some people can master.

This is not the case: if you can learn to speak one language (your mother tongue) then you already possess the skills and capacity to learn another, and another. There are many language aids on the market, some of which are extremely expensive and time-consuming; however, whatever you have to hand, this book will teach you how to make the most of the resources you have available to you.

You will find your confidence growing with each step and will quickly find yourself eager to converse in your new language, as well as gaining a deeper understanding of the culture, art and history of your chosen country.

Avanti, da-vai, Ikoh, let's go!

The situations we will cover together are

- The Basics. Building your vocabulary in simple blocks
- Phrases that will give you a template to adapt to different situations
- Accent and pronunciation
- Making time for study
- Visiting the country: your new language in the wild.
