Sky Hunters: X-Battalion Jack Shane

Bobby Autry is one of the best in the world at what he does. An elite combat chopper pilot, Autry has been tested under fire and always come out on top. But his new assignment might change all that. He's been tasked to lead a new unit of the elite Night Stalkers, a unit that can outfly the rest of the pilots in SOAR (Special Operations Air Regiment), outshoot the best gunners in the SEALs or Deltas, and operate as independently as the most lawless gurreillas. The results: an experimental unit expected to fail: the X-Battalion. It won't be easy. The pilots he has at his command are the craziest, most dangerous, most unpredictable men in the military, men capable of thinking beyond rules and regulations, but men equally capable of breaking them. Autry will need every one of them if they are to survive their first mission. North Korean dictator Kim Il Sung had procured a weapon of apocalyptic destruction, and all intelligence points to his willingness to use it within the next 48 hours. If he deploys the weapon, he will poison the entire planet with radioactive fallout. The only way to stop him is with a group that can move silently, strike powerfully, and not worry about breaking a few rules along the way. The only way to stop him: X-Battalion.
