Across Four Realms: A Short Story Omnibus James Young, Anita C. Young

Across Four Realms is a collection of short stories that introduces the reader to four disparate universes, with the sole constant that chaos knows no boundaries...and pain is a companion to all. *** "Ride of the Late Rain" (Vergassy Chronicles #1) *** "Ride of the Late Rain is a great read with well-crafted dialogue and outstanding, realistic battle scenes..."--Pop Cults "A captain's first duty is to the Confederation.."--Confederation Fleet General Order #1 In "Ride of the Late Rain," Commander Leslie Hawkins is the master of the destroyer Shigure, the oldest vessel in the Confederation Fleet. Equipped with a powerful, new device, the "Late Rain" is chosen for a special, dangerous project. With a young crew and modifications that make her vessel not what she seems, Commander Leslie Hawkins presses into unknown space to examine structures detected by a Confederation Fleet survey vessel...and discovers that Mankind is not alone. *** "Pandora's Memories" (Usurper's War #1) *** "[I]f you like military fiction, you might want to give ["Pandora's Memories"] a try. Recommended..."—Right Fans: Sci-Fi from the Other Side "Pandora's Memories" takes place in a very different World War II than the history books remember. Adolf Hitler is dead. Queen Elizabeth II reigns on the Commonwealth throne while a usurper sympathetic to the Nazis inhabits Buckingham Palace. Having turned aside the Soviet Union's initial assault into the Greater Reich, the Wehrmacht is now stymied at the gates of Moscow. With the Red Air Force bloodied, the Kremlin under steady blows from the Luftwaffe, and Joseph Stalin comatose, the desperate Soviet Triumvirate turns to the United States in a plea for aid against the mutual Nazi foe. Indifferently equipped, the young men of the American Air Expeditionary Force (AAEF) are thrown into action in order to keep the Soviet Union in the war. *** "After the Scythe" (Scythefall #1) *** "The end of the world was just the beginning..." The people of Newton's Village thought they'd witnessed the worst in humanity on the night the president announced the imminent impact of the asteroid Scythe. Four weeks later, after Scythefall killed almost a third of the nation, they are about to find out just how wrong they were. After the Scythe is the story of everyday people's sacrifice and resolve in a struggle against desperation, violence and lawlessness. *** "Fenrir Reborn" (Architects of Lore) There's really only one place it can start. Margareta. Sindri Modulf has been tested many times throughout his life. No test has been greater than the one confronting him now: To bring back a once-in-a-millennium Seer from the precipice of grief-induced madness. Unwilling to let Empaths and Telepaths rip apart his friend's mind to retrieve the visions within, Sindri does something he has never done before: bare his soul. *** Crossing the genres of alternate history, post-apocalyptic dystopia, military science fiction, and urban fantasy, Across Four Realms provides almost three hundred pages of action, suspense, and character development. Praise for James Young: "Young's style is engaging and accessible, and the heroes are all basically admirable."—Stephanie Souders Praise for Anita Young "[Anita C. Young] is a smart writer who knows how to spin a good yarn."—Pop Cults
