9 Provocative Right Brain Branding Maneuvers For The Everyday Scribe: Conquer Your Comfort Zone Fears, Capitalize On Your Artistic Side, And Transform Chaos Into Cash Jennifer Darden

Are you ready to begin with a blank white canvas and a palate of possibilities to paint the brand of “YOU” you want the world to know? There’s a fine fanatical line between the insanity of technology and the passion of art. The journey begins with knowing who you are and who you aren’t.

Provocative right brain branding teaches you specific maneuvers to push yourself beyond comfort zone constraints, craft your artisticpreneurial brand, and thread your creative spirit throughout the whole process.

As an artist you see and experience the world differently. This tactical series helps you claim and appreciate the individualistic, infinite freedom that makes up the charismatic character of the sometimes chaotic, always colorful world of the artisticpreneur.

You will achieve enormous momentum, personal power, and confidence when you commit to not allow an obsession with perfection to become an obstacle to progress as you conquer each maneuver. I understand the pain of being an artist in your desire to create and not wanting to touch technology. What if you changed your perception from procrastinating over intimidating technology to performing with irresistible tools?

Pioneers don’t let an obsession with perfection become an obstacle to progress. Visionaries see what others don’t and create what others haven’t. This program helps you blend both to proudly define your artisticpreneurial persona and blaze a trail as you portray your brand, and propagate your endeavors into this creative economy.

These steps will also impel you through fear, guide you to identify your inner scribe, initiate that persona into a public brand, influence your market using social technology, and generate a huge impact on your readers and your life as a writer!
