Foundations of Differentiable Manifolds and Lie Groups gives a clear, detailed, and careful development of the basic facts on manifold theory and Lie Groups. Coverage includes differentiable manifolds, tensors and differentiable forms, Lie groups and homogenous spaces, and integration on manifolds. The book also provides a proof of the de Rham theorem via sheaf cohomology theory and develops the local theory of elliptic operators culminating in a proof of the Hodge theorem.

From reader reviews:

Leo Osborne:

Book will be written, printed, or created for everything. You can know everything you want by a book. Book has a different type. To be sure that book is important point to bring us around the world. Adjacent to that you can your reading talent was fluently. A reserve Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94) will make you to end up being smarter. You can feel much more confidence if you can know about every thing. But some of you think that will open or reading some sort of book make you bored. It's not make you fun. Why they can be thought like that? Have you seeking best book or suited book with you?

Jennifer Garrison:

The book Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94) can give more knowledge and information about everything you want. So why must we leave a very important thing like a book Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94)? Wide variety you have a different opinion about book. But one aim this book can give many data for us. It is absolutely right. Right now, try to closer with your book. Knowledge or information that you take for that, you may give for each other; you are able to share all of these. Book Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94) has simple shape but the truth is know: it has great and large function for you. You can appearance the enormous world by start and read a book. So it is very wonderful.

Jody Watson:

Reading a book tends to be new life style in this particular era globalization. With looking at you can get a lot of information that could give you benefit in your life. The authors nowadays always try to improve their proficiency in writing, they also doing some research before they write to their book. One of them is this Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94).

Mark Guerrero:

Do you have something that you like such as book? The e-book lovers usually prefer to decide on book like comic, short story and the biggest you are novel. Now, why not seeking Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94) that give your fun preference will be satisfied by simply reading this book. Reading behavior all over the world can be said as the way for people

to know world much better then how they react toward the world. It can't be said constantly that reading routine only for the geeky man but for all of you who wants to end up being success person. So , for every you who want to start examining as your good habit, you may pick Foundations of Differentiable Manifolds and Lie Groups (Graduate Texts in Mathematics) (v. 94) become your personal starter.
