A popular and innovative way to help students study for exams.

The Infectious Disease Flashcards can be used to learn or memorize facts, but they can also be used to help you see and remember the relationships between facts and concepts. The process of learning these relationships makes it easier to master a subject and do better on the test. This deeper kind of learning can be achieved for microbiology with this set of flashcards.

The deck of cards includes information on 48 diseases that affect different body systems. One side of each card includes two photographs: one showing the disease agent itself and one showing the effect of the disease on the human body. The other side includes an organized summary of information about the disease.
