Agricultural Investment and Productivity: Building Sustainability in East Africa (Environment for Development)

Agricultural Investment and Productivity: Building Sustainability in East Africa (Environment for Development)

Agricultural Investment and Productivity provides a deep and systematic look at the opportunities for and constraints to investments in sustainable agriculture in East Africa, offering important insights into what works and how to analyze agricultural investments in one of the poorest regions of the world.

The book critically examines the reasons behind East Africa's stagnant agricultural productivity over the past forty-five years, using the primary lens of investments in fertilizers, seeds, and sustainable land management technologies. These investments have a tremendous impact on production volume, ultimately affecting the income of millions of families throughout the region.
