## **Disentitlement?: The Threats Facing Our Public Health Care Programs and a Rights-Based Response**

Timothy Stoltzfus Jost

No developed nation relies exclusively on the private sector to finance health care for citizens. This book begins by exploring the deficiencies in private health insurance that account for this. It then recounts the history and examines the legal character of America's public health care entitlements - Medicare, Medicaid, and tax subsidies for employment-related health benefits. These programs are increasingly embattled, attacked by those advocating privatization (replacing public with private insurance); individualization (replacing group and community-based insurance with approaches based on individual choice within markets); and devolution (devolving authority over entitlements to state governments and to private entities). Jost critically analyzes this movement toward disentitlement. He also examines the primary models for structuring health care entitlements in other countries - general taxation-funded national health insurance and social insurance - and considers what we can learn from these models. The book concludes by describing what an American entitlement-based health care system could look like, and in particular how the legal characteristics of our entitlement programs could be structured to support the long-term sustainability of these vital programs.

**Phyllis Thompson:**

As a college student exactly feel bored to reading. If their teacher asked them to go to the library or make summary for some publication, they are complained. Just little students that has reading's soul or real their hobby. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Disentitlement?: The Threats Facing Our Public Health Care Programs and a Rights-Based Response can make you truly feel more interested to read.
